WESTMINSTER GUIDE POST

Features & Benefits Guide

Offering a cost effective alternative to hoop signs

Designed in conjunction with Westminster engineers to complement their conservation areas and World Heritage Sites, the Guide Post is a durable, low level sign system. It is ideal where aesthetics and clutter reduction have a high priority. Offering a cost effective alternative to hoop signs, the Guide Post has proven field impact resistance, reducing the need for call outs and replacement parts. Available with an illuminated or reflective 300mm sign legend, the illuminated version uses the latest LED lighting technology featuring low energy and long life.

Features & Benefits

- One piece moulded body
Enhances toughness and durability
- Flexible reboundable mounting
Survives most vandal and vehicular impacts
- Tested to IP54
Reduces maintenance and helps sustain performance
- 24 Volt AC operation
