

**A low cost, low energy, fully engineered integrated LED light unit for 600 & 750mm signs.**

Simmons signs LUA LED, fully integrated light unit retrofits to all Simmons signs LUA heads, manufactured since 1992. A cost effective LED solution.

**Features**

- Fully integrated light unit, lens and driver, IP54 rated system.
- Injection moulded UV stabilised polycarbonate – Grey or Black.
- Potted, purpose designed, constant current driver.
- Plug and play.
- Long life LEDs with open circuit protection.
- 230V or 24V.
- Optional photocell.
- Optional remote monitoring equipment.
- E3 UE3 for 600mm signs option.

**Benefits**

- Up to 75% energy savings.
- Quick and easy installation. When retrofitting to an in-situ LUA head, the existing lens and light units can be recycled.
- Very low maintenance - fit and forget.
- Durable.
- Quick payback ratio.
- Minimal disruption to road users, reduced risk to personnel and lower traffic management costs.
- In the event of one LED failing, the unit will remain lit.
- Optional photocell switching extends product life and increases savings.
- Uniform illumination.
