

Environmental Policy

Situated in Telford, Simmonsigns Limited is a market leading manufacturer of illuminated and non-illuminated traffic signs, lighting and traffic safety management products for national and international highway applications. The scope of this policy encompasses design, manufacture and distribution of lighting and traffic safety management products.

The Company recognizes that all our products and services will have an impact on the environment. We are committed to the protection of the environment by minimizing any negative impacts and to continually improve our environmental performance.

Covid 19 has placed additional responsibilities on the business, for example, to maintain safe working distancing and implement more thorough cleansing practices. Simmonsigns will continue to comply with all regulatory requirements and will uphold our Environmental commitments wherever possible throughout this challenge.

The Company is committed to:

Complying with all applicable environmental regulatory requirements and consents.

Managing our energy and water efficiency in all operations.

Limiting and actively reducing the generation of all wastes, discharges and emissions. Reusing and re-cycling materials wherever possible and economically viable.

Providing all our staff with environmental awareness training and job specific training.

Supporting our customers and supply chain to improve their environmental performance.

Monitoring, recording and internally publishing our environmental performance data.

Making continuous improvements to minimise the environmental effects from our operations, including the reduction and elimination of single use plastic packaging.

This policy is implemented by means of an environmental management system, which forms part of our integrated business management system. Through a programme of audits, we will monitor, control, and set improvement targets for all our environmental aspects. Operating, auditing, and reviewing annually, an Environmental Management System which complies with the requirements of ISO 14001:2015.

This policy will be reviewed annually.
