

DESCRIPTION

Internally Illuminated sign system

The INVINCA has become the first word in durable illuminated traffic signage. Developed using patented plastic moulding technology, the INVINCA employs a unique bezel-less construction system with a common access door for outstanding strength and ease of maintenance.

The INVINCA range is available as a single sided sign in both 600mm and 750mm sizes and as a double sided 600mm sign (see separate data guide) LED upgrades are available for all versions of the INVINCA reducing power consumption and increasing product life.

CONSTRUCTION

Body

Translucent Reflective Sign Face

One piece UV stabilised moulded body, available in grey or black, with an inset 5mm high impact polycarbonate backing panel supporting the translucent reflective legend.

Moulded In Graphics Sign Face

One piece 5mm UV stabilised, high impact translucent polyethylene moulding, with non reflective moulded in graphics and a recessed 2mm aluminium trim band, which is polyester powder coated grey or black.

Lighting

Multiple LEDs (see table below)

230v AC
or 24v AC

Mounting

Cast aluminium anti-rotational bracket, to suit 76mm post top fixing. Bracket incorporates robust stainless steel hinge, locking mechanism and light unit mounting.

IP Rating

IP54

Optional equipment

Photocell
