

DESCRIPTION

Simmons signs produce optional battery enclosures for solar products where a customer may not be able or want to fit batteries within a basepost.

Offering a secure, robust, IP rated enclosure that is simple to fit and terminate with up to four 18Ah packs.

- Steel enclosure with key access, note the door can be re-hung to open from the opposite side
- Ingress protection rating IP66
- Will accommodate up to four Simmons signs 18Ah Battery packs providing upto 72Ah
- Route cables through gland plate in the bottom face or through the rear into a post

Installation Schematic

- Steel Enclosure ~8Kg
- 18Ah Battery pack ~ 5.5Kg each
- Two 17mm x 210mm mounting channels pre-fitted to rear at 280mm pitch
- Two IP rated cable glands supplied for site fitting
